## Announcements

**Green Note:** From the website "The Daily Green," here's the latest on laundry: "Once upon a time, laundry smelled "spring fresh" or smelled "like a summer day" not because these smells were added to laundry detergent but because the laundry had actually been hung outside to dry in the fresh, spring or summer air and sunshine. Think about it. Would you rather have popcorn enhanced with butter-smelling "flavor" or would you rather have popcorn with real melted butter? Exactly. Give us the real deal every time. Line-drying your clothes happens to be the real deal. And it also makes a visible statement of your commitment to CO2 reduction." ## **Prairie UU Society Bond of Union**

*We, the members of Prairie, wish to associate ourselves together in a religious community which affirms that we share a common humanity, that we need one another, and that our futures are inescapably bound together. Together we would expand our intellectual horizons, enrich our sensory experiences, and deepen our emotional sensitivities. We would sharpen our ethical awareness and broaden our sense of social responsibility. We would stand tall in our quest for integrity of life, yet not at others' expense. As the prairie stretches out until it becomes one with the sky, let us reach out to touch and be one with the natural world, and with one another.*
