Mary Mullen	Movie	The Last Picture Show		Adults	This is a 1971 coming-of-age movie about several high school friends during their senior year and the adults that surround them. It takes place in a dying Texas town at the time of the Korean War. To me, who grew up in a small town, it seemed extremely realistic which is why I've seen in several times, getting more out of it each time. The fact that it is shot in black and white makes it easier to concentrate on the characters which are all quite memorable.	
Mary Mullen	Movie	Loving Vincent	YouTube	Adults	The movie explores the mystery of Vincent Van Gogh's life and death through the questions of a young man who is supposed to deliver a letter. Two things make this movie outstanding: the fact that you will change your mind about his death many times during the movie and the visual presentation that is entirely in the style of Van Gogh's well-known paintings. It's a once in a lifetime experience.
